

WASHPOD

Skid-based WashPod with three washrooms, finished with a durable impact-resistant WPC exterior, shingled roofing, and built to U.S. standards

EXTERIOR SYSTEMS

STONE COATED METAL ROOFING

WPC CLADDING EXTERIOR WALLS

WPC DECKING EXTERIOR FLOORS

Durable, low-maintenance materials designed for long-term performance, including stone-coated metal roofing for weather resistance, WPC decking for slip-resistant and water-durable surfaces, and WPC cladding for waterproof, UV-stable exterior walls with a cohesive finish.

SPECIFICATIONS

SIZE

10' x 19' PER MODULE (2 TOTAL)
34' x 26' OVERALL FOOTPRINT

DOORS & WINDOWS

Aluminum doors and windows with corrosion-resistant frames, integrated weather sealing, and exterior-grade hardware.

INSULATION & ROOF

3" PU spray foam insulation with stone-coated metal roofing for enhanced thermal efficiency and all-weather protection.

INTEGRATED UTILITIES

Concealed 3-phase electrical system with copper wiring; PEX plumbing with leak-resistant connections.

CORE STRUCTURE

Hot-dip galvanized steel frame with corrosion-resistant coating, engineered for long-term exterior durability.

INTERIOR BATHROOM OPTIONS

INTERIOR SWATCHES

WALL FINISHES

10–12mm solid Stone Plastic Composite (SPC) wall panel system with integrated rigid core construction and factory-applied waterproof decorative surface finish.

FLOORING FINISHES

5–6mm Stone Plastic Composite (SPC) flooring with waterproof wear layer, installed over level substrate.

HARDWARE

Kohler sanitaryware and fittings specified for commercial-grade durability and high-use environments. Fixtures feature impact-resistant construction, corrosion-resistant finishes, and reinforced mounting systems for long-term performance. All components are selected for reliability, ease of maintenance, and consistent operation under intensive daily use.
